EXCURSION, Saturday, September 7, 2024

The excursion is planned for Saturday, September 7, visiting the municipality of Wielka Wieś, which borders directly to Krakow. The municipality of Wielka Wieś represents a unique way of land development, where dynamic suburbanization is blended with typically agricultural areas, as well as areas under nature conservation. During the excursion we will meet the mayor of the municipality and then, travelling by private coach, we will visit the most interesting corners of the commune. Our excursion will end with lunch at the historic manor complex.
